FOREWORD

N publishing this souvenir of the Cheyenne Mission, one desire was to preserve interesting and valuable pictures that have accumulated, which illustrate Cheyenne life, dress and custom. Another object was to present to our mission friends a clearer insight into the work that is being done among these Indians, than can be gained merely from the reports.

Let it be remembered that the pictures varied from simple kodaks to first-class photographs, and were of very diverse size and degree of clearness. Altho they were arranged with great care, there was difficulty in making all pages appear to their best advantage. We regret that the description of each picture needs be so brief, for very many of them suggest a most interesting bit of history.

With the prayer that His blessing enable this little book to accomplish a mission of its own in the hearts of all whom it touches, we now send it forth, believing that you will receive it kindly for the sake of Him who loves and includes our Cheyennes in His world wide message of hope and eternal life.
